- Reduce your monthly energy/utility expenses by **10-25%**
- Eliminate need to frequently replace steam traps
(**10 year guarantee**-10,000+ units installed worldwide with 100% still in operation)
- On Laundry Equipment with multiple traps – reduce touch up time & uneven performance – increase volume by increase in application's temperature
- On Dry Cleaning Press- maintain consistent moisture level – reduce wet marks, shrinkage – enhance vacuum effectiveness
- Free up space in your workplace (Steam Saver mass/volume is a fraction of the size of mechanical traps)
- Reduce frequent replacement of pads/covers
- Qualify for Utility credits/rebates
- Lower Chemical Costs/Reduce Water Consumption (increased efficiency reduces amount of make- up water to treat)
